Creative Cooperation Overview

New series: Creative Cooperation in the Home

“Parents have a mission. Parents provide and protect, nurture and educate with this goal in mind: Happiness!” These words introduce the theme of the new Art of Living for Women series entitled “Creative Cooperation in the Home.” The home-base for the mission of parents is the home, which is both a spiritual and physical space. Our featured speaker will reveal practices that provide such nourishment in family life. Future sessions in the series will drill down into specifics of these practices.

In addition, session one will include a period of introspection where each participant, with the help of a questionnaire, can identify areas in her home routine where she could use some helpful ideas. This time will be followed by the opportunity to discuss these areas with a panel of women who have a range of experience integrating a growing family with home management.
