The pace of life and the demands of a growing family leave today's young mothers with less than ample time to devote to taking care of themselves. Yet self-care is essential personally, and as a wife, a mother, and a friend to many. This engaging workshop is the first in a two-part series on looking or best. Our first session will focus on the application of make-up. How to apply it, what works best with your personal features, and important tips from a professional on how to always look your best!
